## September Speaker: Esterita Austin "A Fiber Artist's Journey"

*September 9, 2021 Guild Meeting at 6 pm via Zoom*

Our September speaker is international award winning quilt maker, designer and teacher, Esterita Austin. Esterita is best known for her series on architectural, portraiture, and old car motifs. She will tell us about her quilting journey which took her from a high school art teacher to a graphic artist to now where she is a world renown creative fiber artist. Prepare to be amazed!

Her quilt "The Well" was a prize-winning piece in the American Museum of Folk Art's international competition. Her work has been published in many periodicals and books, including "Folk Art" the American Museum of Folk Art periodical. She currently teaches, lectures, and shows her work in museums and galleries internationally.

The highlight of Esterita's year has been conducting an all inclusive week-long art quilt workshop and tour in September in the beautiful hills of Tuscany, Italy, which will not happen this year but she is planning one for 2022. However, Esterita will be conducting a workshop for Santa Barbara Quilting Retreats, January 16 -19, 2022, in Carpinteria. Check out her website for more details! <https://www.esteritaAustin.com/>

## September Workshop: Sew In

*Saturday, September 11, 2021, 9 am - noon, via Zoom*

This is a Zoom "Sew In" workshop. Come to quilt on your project and chat with friends! At 10:00 am, Guild member and quilter Pat Masterson will give a demonstration on trapunto for those who are interested in learning this technique.

## President's Message

Oh my goodness, what a month it's been! I had such high hopes for quality sewing time and getting some projects finished. I did make a little progress, but then I broke my toe (cue days of sitting around with my leg elevated), and couldn't use my machine at all. Still, it gave me an opportunity to revisit my English paper-piecing, sashiko and cross-stitch embroidery - I knew there was a good reason to cultivate multiple hobbies! And now, although I am slowly easing back into sewing, it's time to make a sling for my son's broken arm (again!). So yes, personally it's been a trying month!

On the plus side, sitting around gave me plenty of time to write emails and make phone calls to coordinate our first in-person gathering at St. Andrew's Church last month. This is something we hope to continue, further spread of the virus notwithstanding, for the next few months. For those who have really missed seeing friends and catching up on all things quilting, this is a perfect opportunity. Plans are already underway for this month: Thursday, September 9, 12 noon - 3pm. The *Library* will be available for browsing, selecting and returning borrowed items. *Community Projects* will be there and the opportunity to pick up kits or fabric, or to turn in completed items. Rumors have it that there may even be fabric for sale!

We will also have printed copies of the new *Guild Directory* available for pick-up. At last count, we had around 170 renewing or new members so thank you for your continued support of all we do! It's also a great time to meet up with existing friends and to make new ones. Perhaps your Satellite Group would like to meet during this time? All members are welcome for a brief visit or the whole afternoon, though masks are required and vaccination is strongly preferred.

## Letter From The Editor

What is on your YouTube feed? If you are like me, your feed will have lots of quilting channels you follow and those that are your favorites get consumed as soon as they are posted. I have a number of quilting channels I like, all of them for different reasons. Below are some of my favorites.

“**Just Get it Done Quilts**” by Karen Brown, is a brilliantly produced channel by Karen who is a quilter in Canada. I have a number of her videos I’ve watched over and over again. My favorite show is the one she did on flying geese called, “Can I Make Them Fly”. In it, she shares her tips and tricks for you to utilize directional fabric to make a versatile block and she shows many fun examples and methods for making the perfect flying goose. I am in the process of making my Patchwork Flying Geese quilt by Quilty Love and I referenced Karen’s video often when making geese with directional fabric. Oh, and it’s worth checking out her color theory video series if you want to learn more about color and your color zone.

“**Triple Play**” by Missouri Star Quilt company is another one of my regular shows. I really enjoy watching how 3 different quilters make the same block patterns into very different quilt designs. That plus I love how Jenny is so relaxed with her projects, which makes quilting so accessible to newbies who can be intimidated by quilting pros espousing the virtue of cutting precision and ironing form.

“**Jordan Fabric**” by Donna Jordan is another staple show of mine. I really appreciated how she demonstrates her quilt construction process from beginning to end. How she chooses her fabrics, how she plans her work, and how she decides how to quilt the finished top. I always seem to learn new tricks from her shows and her construction strategy is an example of how you can do wonderful things with simple tools and a basic machine.

I would love to explore and share more YouTube channels, perhaps you have a favorite that inspires your quilting process? If so, feel free to send me a email and let us know your thoughts.
