"Around the Twist"

QUILT

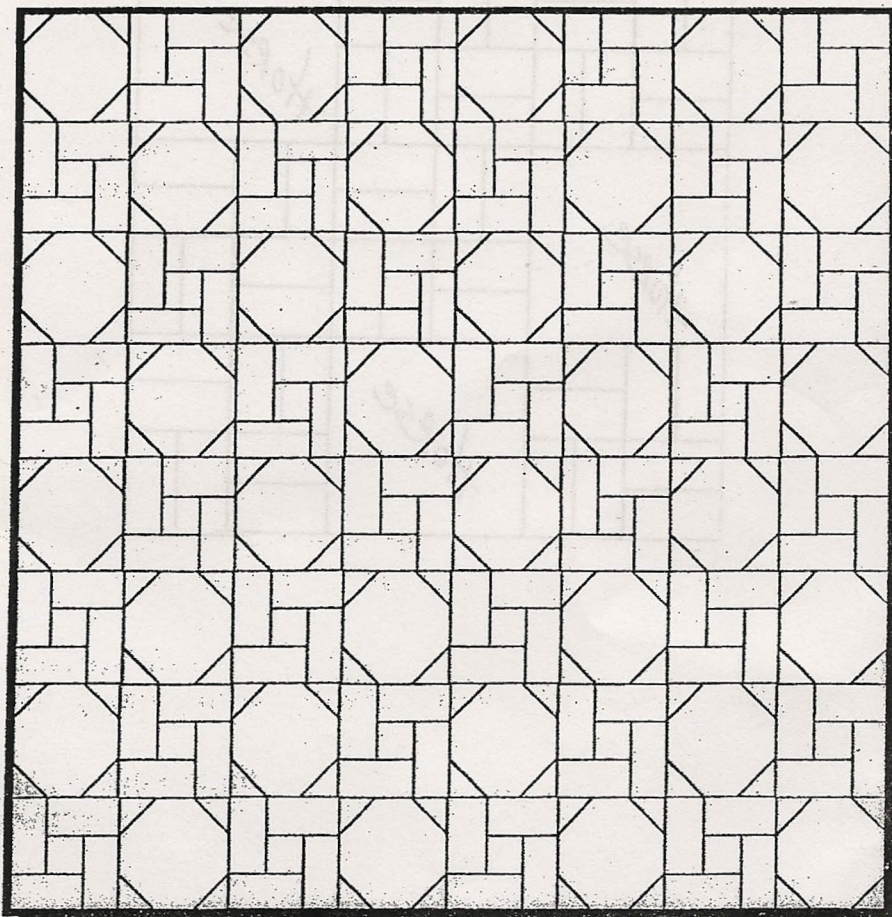

Block A

Block B

Add 1/2" seam allowance to each of the block measurements.

HORSE RAILS

36" x 36" wallhanging

Preparation of Rail Fence Blocks: 4 needed for each segment
9 segments total

Cut strips 1 1/2" x selvage. 6 different fabrics needed
4 sets needed for this size wallhanging

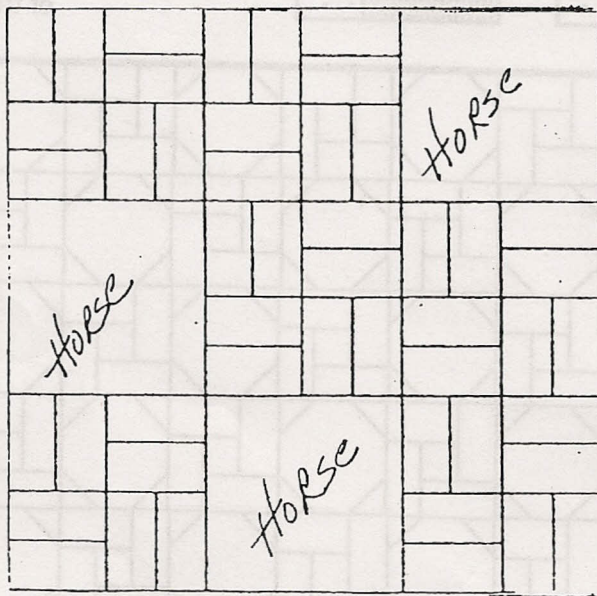

Sew together into 6 fabric sets; then, cut apart every 6 1/2"

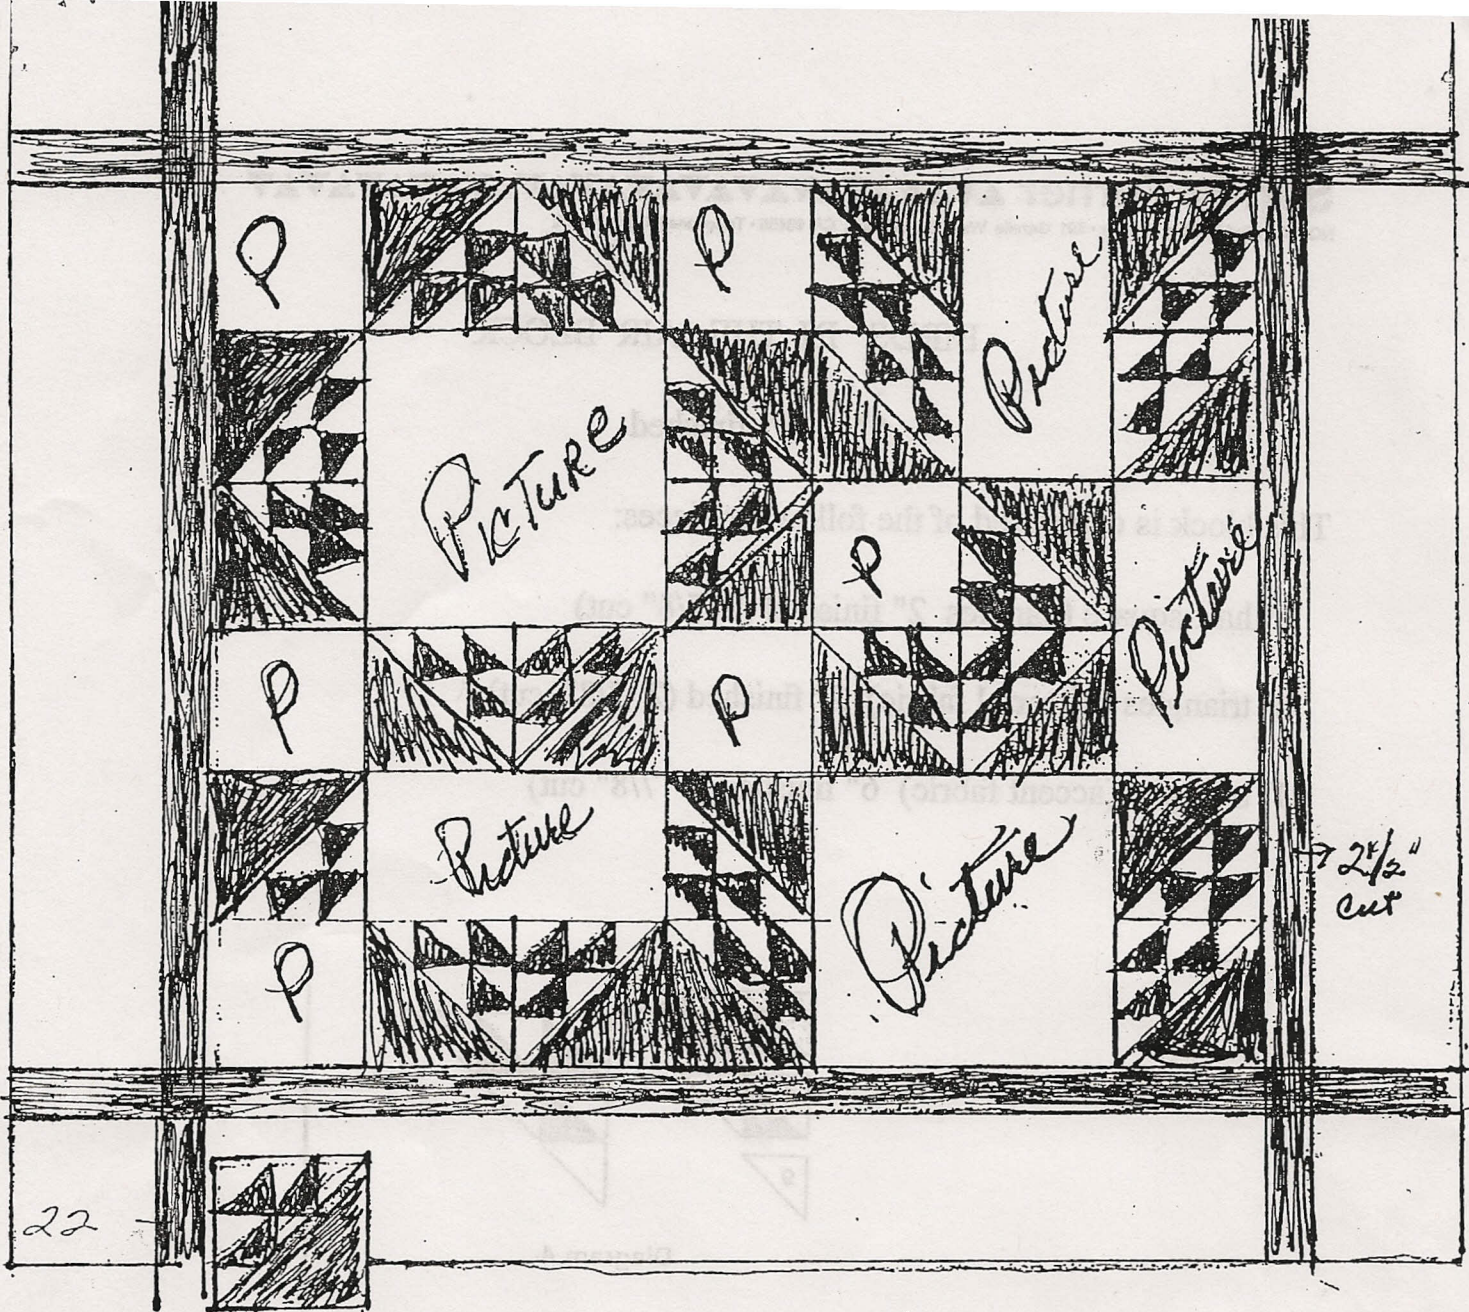

Sew 4 Rail Fence 6 1/2" x 6 1/2" segments together to form a
12 1/2" x 12 1/2" block

Cut out your horse panel or fabrics 12 1/2" x 12 1/2" (one, two, or three)

I recommend using some of your horse fabric in the rails. I also think that
a horse fabric border on two sides only would be terrific.

Remember, play with your blocks on a design board before sewing them
together.
