

## *ORGANIC DESIGN MAKING*

### *CONFIDENT CHOICES*

Join Kathy Doughty for a virtual (Zoom) workshop that reflects decades of working one on one with quilters as they select fabrics and learn new skills. An obsessive quilter herself, Kathy generously shares knowledge gained from her experience as an interactive shop owner, author and designer to open the door to making sound creative choices.

You will enjoy this workshop if you have ever felt confused about where to start, intimidated by technique or frustrated by the same old same old.

Concepts covered in this workshop are process driven. Rather than a specific project, this workshop is about considering techniques and ideas for personalising your quilts. Consider creating a medallion, decorative blocks or borders with the skills presented.

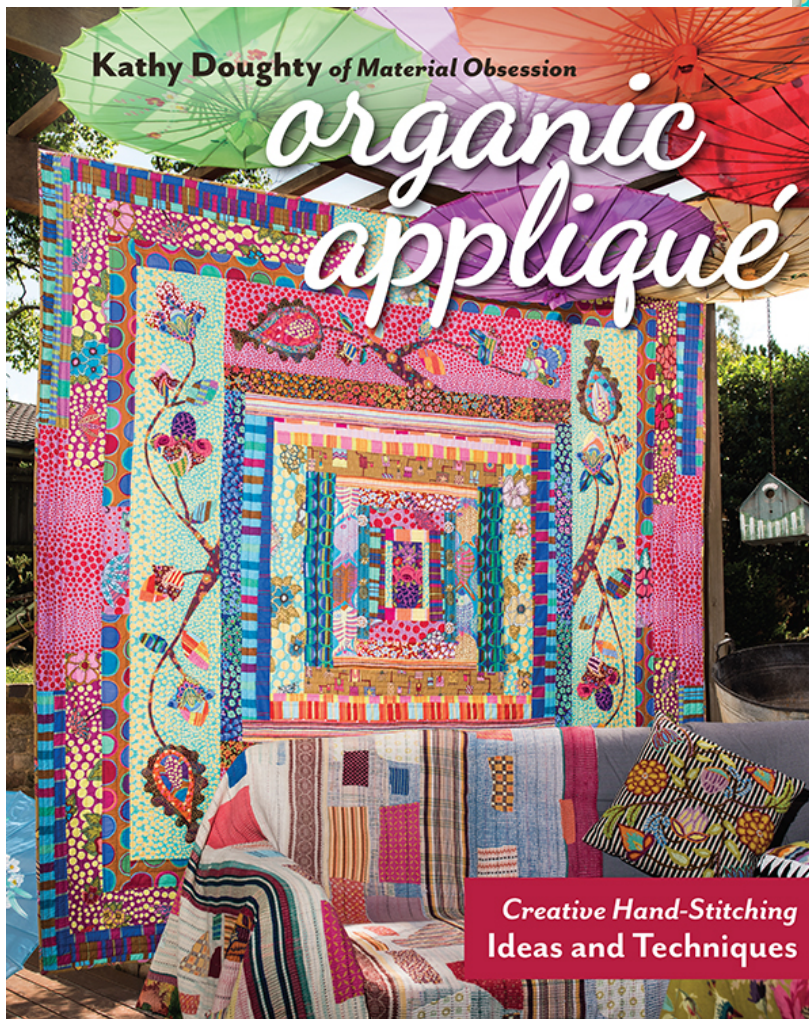

The language used in the class is designed to educate beginners or inspire experienced quilters.

The language used in the class is designed to educate beginners or inspire experienced quilters.

At the end of this workshop you will have a strategy for:

- Confident fabric selection
- Easy techniques for satisfying results
- Creating unique elements for your quilts

Techniques and demonstrations are based on projects presented in *Organic Applique*, Kathy's latest book. Specific projects are detailed in the book which is optional. Patterns for the projects only available with the book.

- Introduction -show quilts/blocks for ideas
- Seeking Interest - how to create an interesting mix of fabrics
- Applique Paper - the benefits and how to's of using this fantastic product
