## TONIGHT!

The great Coastal Quilters Silent Auction! This fun-filled sociable evening adds income to the Guild kitty and offers some real steals for the successful bidders. The unfinished projects (guilt trips), homely fabric (one woman's trash is another's treasure), and anything else - (yarn, patterns, glue gun, magazines, ect.) that you have brought will be just great! Hope you brought your check book and a grocery bag for your booty!

Show and tell! We all enjoyed Suzy Carter's freedom quilt at our last Guild meeting. We would like to repeat that fun by showing special displays of members' quilts at intermission. Sign up with Suzy for this privilege. We will have the show and tell as always for members to share their projects, but our talented members create such beautiful quilts, that they deserve to be hung and admired for more than just a moment!

## Upcoming Programs

Join us in April for a hands-on evening with the Hoffman Challenge CLOTHING! One of our very own Guild members has a piece in the collection. We'll keep her name for a surprize (but you won't be surprized, she's always winning something—and she deserves it!). These unique garments come from all over the country and allow us to see a great variety of work. This will be a memorable evening.

Coming in July for a Star Spangled Christmas— Margaret Peters (who makes Christmas ornaments for the Bushes and the Reagans, and for you Democrats, the Smithsonian. Margaret's energetic talk will be a perfect occasion to invite your husband to come with you! Watch Coast Lines for more information about this charming speaker.

Title 3—

The President

Proclamation 6516 of December 21, 1992

**Year of American Craft: A Celebration of the Creative Work of the Hand, 1993**

By the President of the United States of America

**A Proclamation**

While the United States leads the world in the development and use of sophisticated technology and materials, Americans continue to share a special appreciation of works made by hand. Our ancestors were skilled artisans and craftsmen, as well as accomplished hunters, farmers, and fishermen, and today we still marvel at their skill in carpentry, weaving, stonecutting, smithery, and so forth. Over the years, Americans have maintained a magnificent tradition of craftsmanship and folk art, in keeping with the spirit of our forebears, and it is fitting that we celebrate this rich portion of our national heritage.

Using their hands as the tools of their imaginations, American artisans have designed and developed a tangible record of our national experience. By plying trades that have been passed on through the centuries, from generation to generation, quilters, carvers, and other craftspeople of our day are helping to preserve America's history. These tradespeople and artists have produced objects of practical application, as well as lasting beauty, and many of our art galleries and museums display outstanding samples of their work.

We are rightly proud of American craft and folk art because, in many ways, these works of the hand embody traditional American values: pride in quality and service, diligence in pursuit of a goal, attention to detail, and respect for learning and achievement. By celebrating traditional American craft and by saluting the men and women who have mastered fine trades, we reaffirm the importance of those timeless values.

Crafts are inspired by the best in American tradition, yet they also reflect the informed creativity and vision of the present. Having learned from the past, today's artisans and craftspeople are adding their own unique touches to American culture. As we celebrate traditional craft and folk art in the United States, we also recognize each of the masters and apprentices who, through their works of the hand, continue to preserve and shape this living legacy of beauty.

The Congress, by Senate Joint Resolution 218, has designated 1993 as a "Year of American Craft: A Celebration of the Creative Work of the Hand" and has authorized and requested the President to issue a proclamation in observance of this year.

NOW, THEREFORE, I, GEORGE BUSH, President of the United States of America, do hereby proclaim 1993 as a Year of American Craft: A Celebration of the Creative Work of the Hand. I invite all Americans to observe this year with appropriate programs and activities in celebrating the traditional arts in the United States.
